The outputs of IR2MA include the development of knowledge and smart agriculture tools as well as the operation of an extended network of expertise dissemination, to promote demand-driven good practices regarding irrigation-drainage and their nexus with environmental sustainability.

Τα αποτελέσματα του IR2MA περιλαμβάνουν την ανάπτυξη γνώσης και εργαλείων έξυπνης γεωργίας καθώς και την λειτουργία ενός εκτεταμένου δικτύου διάχυσης πληροφορίας, με σκοπό την προώθηση καλών πρακτικών που αφορούν την άρδευση και την αποστράγγιση και τη σύνδεσή τους με την περιβαλλοντική αειφορία.

I risultati di IR2MA includono lo sviluppo di conoscenze e strumenti 'smart' per l'agricoltura, unitamente alla creazione di una estesa rete di divulgazione, con l'obiettivo di promuovere la diffusione di buone pratiche per la gestione dell'irrigazione e dei sistemi di distribuzione delle acque ad uso irriguo e per migliorarne la sostenibilità ambientale.
