

- Dr Francesco F. Montesano, member of PB3 team in IR2MA project, was invited to give a seminar on the topics of IR2MA project for faculty staff and PhD students in “Técnicas Avanzadas en Investigación y Desarrollo Agrario y Alimentario”, department of Ingeniería Agronómica, Universidad Politécnica de Cartagena, Cartagena (28/11/2019, Murcia, Spain).

Announcement: <http://taidaa.upct.es/files/actividades/1e209f65b0.pdf>

Extract of the presentation:

The slide features the ISPA logo (National Research Council, Institute of Sciences of Food Production) in the top left. The main title is "Sensor-based irrigation management of soilless greenhouse Mediterranean vegetable crops". Below the title is the presenter's name, Francesco F. Montesano, and his affiliation, CNR - ISPA. Three small images show: 1) a sensor in a pot, 2) a plant in a pot, and 3) a sensor in a field. The date and location, Cartagena (Spain), 28 Nov 2019, are at the bottom.

...

The slide is titled "IR2MA demonstration activities: testing sensor-based and DSS-based irrigation management in commercial greenhouses". It includes a map of the region, a photo of a sensor, and logos for Interreg Greece-Italy IR2MA and the European Union. A collage of photos shows: a sensor in a greenhouse, a sensor in a trench, a sensor in a field, a sensor in a greenhouse, a sensor in a field, and a sensor in a greenhouse. At the bottom, there are two URLs: <http://80.241.136.71/legacy/pages/login.html> and <https://web.bluleaf.it/>.
