- A new technical report will be published (4/2019)
- Helpdesk operation

PB1 UoI

WP3

- Repository
- Irrigation system audits
- [DSS completion - operation – evaluation](#)

WP4

- Participatory systems mapping, current state report, web presence and operation support

WP5

- Experiment regarding recycled water
- Completion of report regarding aquifers salinisation

WP6

- Acceptance of presentation for Irrigation Matera (June 2019), participation to the conference

Problems encountered and proposed solutions

- From 1/10/2018, TEIEP was merged with the University of Ioannina (Greek Law 4559/2018), the new PB1/LB onwards.
- That, along with changes in Greek legislation generated numerous managerial issues, while activities linked with tenders completion, contracting, payments etc. were almost halted.
- Significant progress has been made but full resolution has not been achieved yet.
- **Reallocation of budget in order to cover extra administrative work load was asked and approved.**

Participatory systems mapping

Irrigation system audits
